

# ESI GRIPS Catalogue

**17000**

## **CHUNKY BLACK HANDLEBAR GRIPS**

Thick aerated Silicone rubber grips that mould to your hands, have the adhesion of lock-ons, and the weight of traditional foamies! The silicone has exceptional shock absorption, so say goodbye to numb, fatigued hands. It also sticks to both hands and bars, wet or dry, without being tacky, and the grips are unaffected by heat and UV rays. The top is thicker than the underside so you get maximum padding without reducing "feel" on the bars, and they are easy to install with windex, metho, or compressed air (no adhesives required). Use them once and all other grips will become a memory! Material: 100% silicone Wt: 71g incl packaging Length: 5 1/8" Thickness: Installed: Dia. 32mm
