## **HIKER PHOTO CAMERA WALKING POLE**

Sick of your current travel companion? The Hiker Photo Camera is the perfect replacement! With a built in, concealed camera mount it quickly converts from a walking pole, to a walking stick, to a monopod; and back again. It uses a high grade aluminium (Alu 7075 T6 F56) three piece telescopic shaft that extends to 135cm and retracts to just 61cm, and is topped off with a shapely wooden handle, a steel tip and has a slender weight of just 280g. So versatile, practical and good-looking you'll wonder how you ever travelled without it!

## **BLOOM 145 TREKKING POLE**

The pole that has it all! The Bloom 145 is the most feature packed pole in the Masters range, with high grade aluminium (Alu 7075 T6 F56) three piece telescopic shaft that extends to 145cm and retracts to just 64cm, and the internal security of the Super Blocking System (SBS). It also features the patented Antishock On/Off system, Automatic Adjustable padded strap and Replacement Basket System (RBS). Want more? It's fitted with a carbide tip, a T4 dual density grip, has a Thermo-Sublimated Design (TSD - scratch resistant print) and comes with two basket sizes and a rubber tip protector for urban use. All this weighing in at just 580g per pair. What more could you ask for out of a pole!

**1110408**

## **SCK 135 TREKKING POLE**

Slightly shorter than the Bloom, but definitely not short on features! The SCK 135 features a high grade aluminium (Alu 7075 T6 F56), three piece telescopic shaft that extends to 135cm and retracts to just 61cm, with the security of the Super Blocking System (SBS). Also equipped with the patented Antishock On/Off system, Automatic Adjustable padded strap and Replacement Basket System (RBS). Add to all this a carbide tip, a T6 cork grip, and two basket sizes and a rubber tip protector for urban use and you have an outstanding value pole! Weight only 550g/pr.

**1110507**

## **SHERPA RED TREKKING POLE**

For those who like the direct approach-straight up! Still maxed out with features like the patented Replacement Basket System (RBS) and Automatic Adjustable Comfort Strap, the Sherpa is a top of the line pole without the price tag. Identical to the Bloom are the High grade aluminium (Alu 7075 T6 F56) three piece telescopic shaft that extends to 145cm and retracts to just 64cm, with the internal security of the Super Blocking System (SBS). To top it off we have fitted a carbide tip, a T7 dual density grip, and thrown in two basket sizes and a rubber tip protector for urban use. Phenomenal value trekking poles that weight just 580g per pair.
